ASSOCIATION MIGHT BE THE OUTGROWTH OF PEACE PARLEY

**The Task of Building This Relationship Will Not be
Allies**
**JAPAN, ITALY AND
CHINA STILL HOLDUP**
**No Indication as to Whether
Germany Will Receive
Invitation**
(International News Service)
WASHINGTON, July 13.—Interest in President Harding's proposed disarmament conference might lead to the establishment of an association of nations, it was intimated today.
Although it is stated in official circles here that the administration would be very happy if the association should be born out of the conference, it was rather plainly indicated that this proposal will not be thrust upon the Allies as one of the tasks of the proposed parley although it may be an outgrowth.
Japan, Italy and China have thus far failed to make formal reply to the proposal, it was officially announced at the State department today.
There was no indication that Germany might be invited into the parley.

Alabama's Hundred Anniversary Coins

(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, Ala., July 13.—Alabama's fifty cent piece commemorating the one hundredth anniversary of the admission of the state into the union will be coined at once. The state centennial commission Tuesday decided to appropriate the eight hundred dollars necessary for the making of the dies and to obtain the coins as soon as possible. The coinage of the memorial half-dollar was authorized by congress last year in a bill of Representative Rainey which was enacted into law without opposition.
Fifty thousand of the coins will be made and they will be sold to the people of Alabama. The centennial commission believes the coins will bring a premium and it is proposed to use the surplus in continuing the work of the commission.
The report of Mrs. Marie Bankhead Owen, director of the centennial work, showed that the various activities of the commission had cost the state a little more than three thousand dollars and that the state treasury still contains nearly seven thousand dollars of the appropriation of ten thousand dollars.

Refuses Rehearing on Meridian Rate

(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, July 13.—The interstate commerce commission has refused the application for rehearing of the Meridian rate case which was made by various railroads operating in Alabama, according to a telegram received by the public service commission requiring certain railroads to increase intrastate rates would cause still greater discrimination against Alabama towns and cities. The result was that in relieving one discrimination still greater injuries would be done and the railroads asked the interstate commerce commission to take up the case again. By the refusal the railroads contend that the original order increasing intrastate rates cannot be applied at all.

The Baptism of The Holy Spirit

The Church of Christ Tent meeting on Grant street with G. C. Brewer of Austin, Tex., continues with unabated interest. The usual large audience heard the evangelist last night on "The Baptism of the Holy Spirit."
A goodly number have been added to the body and many others are interested.
A large crowd is expected to hear the sermon tonight on "Heartfelt Religion."

National Guardsmen to be Placed on Trial at Hamilton, Marion County—Judge Duke to Preside

**May be Delayed on Account of Illness of Special
Prosecuting Attorney Judge Horace C.
Wilkinson—Preparations for
Trial is Being Made**

(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, July 13.—Sergeant Robert J. Lancaster and eight other national guardsmen, charged with being members of the mob which removed Will Baird, white miner, from the Walker county jail January 13 and shot him to death, will be placed on trial before Judge Lum Duke of Opelika in the Marion county circuit court, at Hamilton July 25. Judge John C. Anderson, chief justice of the supreme court of Alabama, Tuesday announced that he had selected Judge Duke to preside at the trials, thus relieving Judge T. L. Sowell and J. J. Curtis of the Marion circuit court of this responsibility.
While the order of Chief Justice Anderson did not give any reason for the transfer of Judge Curtis to Marion for the trials, it became known during the afternoon that it was desired to have the court held by a judge from another circuit in order that all local influences might be removed. This action was taken with the consent and approval of the judges of the circuit. Had not the order been issued, the cases would have been tried by Judge Curtis. Judge Sowell presided at the first trial of Lancaster and under the apportionment of the work of the circuit the cases during July would have gone to Judge Curtis.
Preparations for the trials are being made and subpoenas have already been issued for the witnesses. The defendants will be arraigned in the Marion circuit court July 18 and their cases set. While it is not known which case will be called first, it is probable that Sergeant Lancaster will be the first to submit his case to a jury and that his trial will be followed by that of Sergeant Glen M. Stevens. An effort will be made to dispose of each case in less than one week, but Judge Horace C. Wilkinson, special prosecuting attorney for the state, expressed the opinion Tuesday that each trial will take as much time as the first trial of Sergeant Lancaster. Lancaster's first trial continued more than eight days, counting the time the jury was deliberating in its vain effort to reach a verdict.
It is feared now that the sudden illness of Judge Wilkinson Tuesday may interfere with the trial of the soldiers. Judge Wilkinson was preparing to dispose of the cases, when he was attacked, physicians advised him that it would be necessary for him to take a long rest.

BASE BALL SERIES CLOSES TODAY FOR THE HALF SEASON

The local season closes today with the last game of the three game series which is to decide the winner, Twins or Triplets.
The Triplets put up a good brand of ball in all the contests staged in the local precincts and deserve to have honorable mention for their good playing and excellent sportsmanship.
The Triplets are being hard pushed by the Columbia Mules who are on a bating rampage on their home lot against the Russellville Miners, and only a bare margin or half a game separates the two contestants for honors as runners up. The Mules are the hardest hitting team in the loop and have always lost by a close score when they tasted the bitter dregs of defeat. In the last seven games with the Twins, the Mules took four and the other three, going to the Twins were taken by one run margins.
Russellville it is rumored will probably sell its franchise to Huntsville for the second half the season on account of their failure to draw sufficient crowds at home and a meeting will be held tonight at the Hawk's club tonight regarding the matter. The Miners have made a good race and do not deserve to remain in the cellar position, but the breaks have been against them all the way through and they couldn't win a majority of their games even though they carried some of the headlines in their batting lists. Russellville finishes the last four games at Columbia in preference to a home engagement. They have always drawn excellent crowds away from home.

Truck Collision Claims One Life

NASHVILLE, TENN., July 13.—Ira Galbreath, of Columbia, is dead, two others are expected to die and nine others are seriously injured as a result of a collision between a gas motor truck car and a work train standing on a siding near Kingston Springs early this morning on the N. C. and St. L. Railway.
A special relief train bearing several local physicians and a corps of nurses were sent to the scene of the accident and the injured were brought here.
**JULY CLEARANCE
SALE AT MATLOCK'S**
Matlock's Cash Store announces today a July clearance sale of much magnitude, starting July 15 and closing July 30. "You have a special invitation to visit this store, and you will be pleased with the wonderful bargains," said Mr. Matlock today.

OVERWORK CAUSES ILLNESS OF JUDGE HORACE WILKINSON

Examination of Witnesses Postponed Until Today in Case of Sheriff Mitchell
(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, ALA., July 13.—Judge Horace C. Wilkinson of Birmingham, special counsel for the state in the prosecution of the impeachment case against George W. Mitchell, sheriff of Lauderdale county, became suddenly ill in the office of the attorney-general early Tuesday afternoon and was taken to a local hospital. Because of his illness it was necessary to postpone the examination of the two remaining witnesses for the state until Wednesday. Physicians who examined Judge Wilkinson said he was suffering from over work and that he might be able to appear in court Wednesday but it would be necessary for him to take a long rest immediately afterward.
A. L. Bradley, white, and Aeron Black, negro, witnesses for the state who failed to appear before Commissioner N. H. Seay for the submission of their testimony last week, were brought to Montgomery by officers Tuesday at noon and were to have given their testimony during the afternoon.
The Supreme court was in consultation throughout Tuesday and went over the testimony given before Commissioner Seay which was delivered to the court Tuesday morning. The transcript continued all testimony for the defense and all testimony for the state except that of the two witnesses who refused to answer the summons.

READY TO OPEN NEW SHOE STORE

The Moseley-Eggers Shoe Company, will throw its doors open to the public tomorrow afternoon, July 14. This new firm is located in the Matlock's building, Second avenue, Albany, and is composed of E. M. Eggers, formerly associate secretary of the Y. M. C. A., a popular young business man and R. J. Moseley, formerly manager for Marshall, Jordan & Keith.
They will carry a line of both high-grade and popular priced shoes.
The interior of the building has been newly painted and decorated and the new shoe store will be quite an acquisition to the business section of Albany.

TRIPLITS FIGHT THIRTEEN FRAMES BUT FAIL TO STOP TRAVELING TWINS

**"Hardluck" Batch Finally Adds
Win to His List After
Bad Brawl**
**PAIR PINCH-HITTERS
USED TO GET DECISION**
**Last Game of First Half Season
Played Today on the
Local Lot**
"Old Hard Luck" Batchelor couldn't shake the jinx that has been accompanying him around the lots all season, but his teammates got together and hammered their way through the barrage of gloom.
The contest at the "Y" Park looked like easy pickings for the Twins up to the ninth frame. The Twins led easily up to that station but Batch got to blowing and the Triplets tied the count.
Then the fray was on in earnest.
The ninth opened after Flack had fled to McClain. Batchelor struck Lucas out, Blissett got his fourth hit with a double to center then Nathan, Lang and Leroy singled in succession, Blissett and Nathan coming across with the tying runs.
The Twins went out in one, two three order for their half the ninth. Sheffield failed to hit in the tenth and "Man O War" McClain was the only one of the home people to join the ranks of swat.
Blissett started the eleventh with his fifth blow, a double to center and things looked black for Batch. Nathan laid down a nice sacrifice and Blissett pulled up at third. Lang cleaved a screamer to Spitz, but Spitz fielded the pellet perfectly and threw to Johnston who caught Blissett five feet off the plate. Carter made a hard shoe string catch of Leroy's drive to left for the last out. The Twins again took the three straights for their quota.
The twelfth frame was also uneventful and the two teams lined up for what they knew would be the opening of a gigantic offensive.
Lucas, first up for the invaders, got transportation on four wide ones, Blissett fell off his hitting spree by poling a long one to Carter and that enterprising fielder came tearing in like a track aspirant and snatched the apple out of space. Nathan singled, Lucas going to the halfway junction. Lang hit sharply to left and both occupants moved up a peg. Leroy got thoroughly "griped" when he took a healthy swing and raised a weak foul into the waiting hands of Joe Johnston. Then the jinx returned. The ball was a little bit wet and Batch, afraid of cutting loose a wild pitch, balked and Lucas joyously romped home. Underwood stopped the inning by hoisting to Manager Mac.
The Twins looked like Pueblo after the flood when they came in for their last turn. Carter first up tried hard to get started but fled to Leroy in deep left. McClain duplicated and the fans headed for the gate. "Babe" Eaks worried along with Lang and finally produced the needed thump, in the first base section. Eddie Lewis was up to his old tricks and took four wide ones. Gilliland was sent in to hit for Lauderdale and crashed a fast one to right, Eaks tearing the rest of the way for the tally, knotting the count. Bennie Russell was relied upon for the blow needed to stop the battle and laid against one for the count that won the fray. Eddie Lewis scored and "Gillie" quit exerting himself realizing the game was over.
The game was the best seen on the local lot for many years and the Triplets deserved credit for they did all in their power to cop and keep the Twins from moving a notch nearer the bunting.

Hero's Sons Meet Death by Wounds

(International News Service)
ALBANY, GA., July 13.—Mrs. Jennie Hudson and Glen Hudson, her second husband were arrested here this afternoon charged with the murder of her two small sons who were found dead at the Hudson home yesterday afternoon. Each had been shot through the head. Mrs. Hudson asserted her belief in the innocence of her husband and denied her guilt. The children were sons of her former husband who was killed in action in France in the world war.

COMPANY CONSENT TO EXAMINATION OF CORPORATION BOOKS

**Equalizing Assessment Will be
Made Amicably and Com-
mission Will Proceed**
(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, ALA., July 12.—John S. Mooring, chairman of the state tax commission Tuesday afternoon officially announced that all litigation between the commission and the Tennessee Coal, Iron and Railroad Company growing out of the efforts of the commission to examine the company's books for the purpose of equalizing assessments had been settled amicably, that the commission would proceed to examine the books without delay and that the inquiry will be made not with any hostility to the company but with the sincere desire to equalize the tax burden of Alabama.
The settlement was effected in Birmingham but Mr. Mooring's official announcement was issued in Montgomery. It not only means that the Tennessee Coal, Iron and Railroad Company has conceded the right of the commission to examine the books, but that the examinations will be made without delay and that the taxes due the state and various counties will be paid without any further great delay. It is probable that other large corporations who were interested in the test case involving the Tennessee Company also will agree to permit the examination of their records without further litigation.
Chairman Mooring's official statement regarding the settlement follows: "Under the settlement if the litigation between the state tax commission and the Tennessee Coal, Iron and Railroad Company, the company concedes, without limitation of any character, the right of the commission or its accountants to examine the company's books and records. In the discussion of the subject since the decision of the Alabama Supreme court, the company was assured that no hostility to it or to any other corporation has been engendered by the litigation and that the real purpose of the tax commission was not directly the raising of revenue but was the equalization of assessments in Jefferson county with the other counties of the state.
"The company through its own agencies had thoroughly investigated this phase of the matter and it had become convinced that the tax commission was sincere in its declared purpose of equalizing the assessments of all taxpayers as nearly as possible under the present law.
"In the final settlement of this matter the company has manifested a most admirable spirit and it not only concedes the right of the state to inspect its books but the officials of the company have assured the chairman that it will co-operate with the tax commission in its efforts to equalize the assessments and equitably distribute the expense of government. An examination will be made of the books of the company at once and I think I can assure the people of Jefferson county that the taxes due by the Tennessee company for the year 1920 will be paid in full at an early date and that there will be no delay in the payment of the taxes for 1921 when they become due this fall.

PROHIBITION LAWS CHANGE OPPOSED ALABAMA ANTI- SALOON LEAGUE

**Superintendent Lawrence Visits
Capitol but Sees Not Gov-
ernor Kilby**
**NOW OPPOSED TO SALE
OF CEREAL BEVERAGES**
**Unless Brewers and Liquor Men
Quit Fight and Acknowl-
edge Defeat**
(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, ALA., July 13.—Dr. Brooks Lawrence of Birmingham and Fairhope, superintendent of the Alabama Anti-Saloon League and the leader of practically all prohibition campaigns in Alabama for the past score of years, was an unexpected and somewhat mysterious visitor to the capitol building Tuesday. He didn't say for what purpose he came, nor did he pay a visit to Governor Kilby, though he did call at the executive department. Dr. Lawrence has not visited Governor Kilby since that memorable day in August of 1919 when he opposed the tonnage tax sections of the revenue bill which Governor Kilby was supporting with all the power at his command.
Dr. Lawrence spent sometime in the outer compartment of the executive department and still longer time in the corridors of the capitol where he met his numerous friends. He declined to say what brought him to the state house, but there were reports general that he came to gain some information about cereal beverages and particular information about whether or not this subject will be included in the call for the extra session of the legislature which is expected during August.
He declined to say whether or not cereal beverages brought him to Montgomery. "What do you think about this subject being included in the call?" Dr. Lawrence was asked. "I cannot say at this time," was the reply. "If the subject is included in the call I probably will have something to say."
The story has gone the round that Governor Kilby has been urged to include this subject in the call and that a large number of members of the legislature who are prohibitionists are pledged to support a bill permitting the sale of cereal beverages. G. W. Austin, chief law enforcement officer, who is known as the foe of violators of the prohibition laws, urged the legislature in 1920 to permit the sale of cereal beverages, contending that it will be an aid to the enforcement of the prohibition statutes.
Dr. Lawrence is opposed to the changing of the prohibition laws. He told his friends at the capitol that personally he was not opposed to the sale of the beverage, which is non-intoxicating, but that many would accept such an amendment as a loosening of prohibition law enforcement in Alabama. "When the brewers and liquor men acknowledge that they are whipped and quit fighting we will be willing to permit the sale of cereal beverages," he commented. But in proof of the implied statement that the brewers are still fighting he pulled from his pocket a photographic copy of an article which carried the headlines "Same Old Stuff Made Milwaukee Famous in Years Not Far Behind" and which gave the information that Milwaukee brewers were getting ready to turn out real beer as soon as the internal revenue department gave its permit under the new ruling of the attorney-general.
In this article Dr. Lawrence pointed out the last sentence: "In making near beer (cereal beverages) it is necessary to make real beer first and then draw the excess alcohol." He said this is sufficient proof to show that the sale of near beer in Alabama will be an aid to violations of the prohibition laws.

REPUBS HOPE SENATE WILL GET PENROSE MOTION TODAY

**Underwood is Leader of the
Democratic Minority
Voters**
**HARDING IS AGAIN
ATTACKED ON STAND**
**Robinson and Harrison Still
After President's Scalp
Reported**
WASHINGTON, July 13.—President Harding's plea for deferred action on the Soldiers Bonus Bill will be carried out after a heated debate, Republican leaders of the Senate predicted today.
Democratic Senators continued their criticism of the President's proposal it being their apparent intention to hold up the Penrose motion to recommend the bill while they attacked the Republican administration and the Republican majority of the Senate.
Republican leaders expressed the hope that they would be able to force a vote on the Penrose motion on or before the end of today's session.
With Senator Underwood leading the Democratic minority favoring the Penrose motion the Democratic senators opposed to it found new leaders in Senator Robinson of Ark., and Pat Harrison of Mississippi.

"Farm to Market, First"—Is Slogan

(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, ALA., July 13.—Thanks for the fight of W. S. Keller, state highway engineer, and the state highway department of Alabama for the continuation of the federal aid plan for road construction work was tendered by the American Farm Bureau Federation in a letter received by the highway department today. The federation announced that the fight would be continued with full assurance that congress in providing for federal aid for the years to come will recognize the need of farm-to-market roads first.
"On behalf of the American Farm Bureau Federation I wish to express to you and your highway department our appreciation of your efforts to secure a continuation of federal aid in road construction on a plan that gives consideration to the farm-to-market and post roads of the country, as contained in the Phipps-Dowell bill," said Gray Silver, Washington representative of the federation.
"We do not believe there should be any compromise on road legislation that would include a federal highway commission with power to limit the roads which shall receive federal aid such as is provided in the Townsend bill or through type of construction would eliminate so many roads which are vital to the transportation of farm products.
"The interests which for several years past have been making determined efforts to centralize the federal appropriations on a few through highways have softened the wording of their bill by declaring for 'interstate highway,' but we much prefer for the congress to make definite legislation. The percentage basis as provided in the Phipps-Dowell bill will give us something upon which we can operate. We appreciate your continued activities and am sure in the final analysis you will not support any legislation that will give us anything less than the requirements in the Phipps-Dowell bill."

Albany Merchant Charters Car Line

The Ory-Cohen Department Store, Second Avenue, Albany, announces that they have chartered all the cars of the Albany-Decatur street car line from 8 to 9 a. m. Thursday, July 14, so that prospective customers coming to their big sale may ride free. According to the announcement "Every car coming toward our store during this hour will carry you absolutely free. Cars going from our store will collect fare." This is an unusual advertising stunt and reflects credit on the big store for its progressiveness.

Third Reduction In Iron Since Jan.

(International News Service)
READING, PA., July 13.—The management of the Reading Iron company announced a general reduction in the prices of its tubular goods, nails, and barred iron, effective immediately. This is their third cut in prices since January 1. The present reduction from eight to twelve dollars per ton.

THE DEVELOPMENT OF MUSCLE SHOALS MEANS NEW ERA FOR ENTIRE NATION

While there is lacking absolute confirmation for the report that the Muscle Shoals power will be developed and used, and that Henry Ford is the man who will turn the trick, the writers in this state who have expressed themselves think there is no longer any doubt; and that the dream of a century or more is to be made a reality. Should such prove to be the case, the recent announcement of Mr. Ford's plans is the most momentous news that has come to this country, especially to the Southland since the German advance into Belgium was announced August, 1914. But there is a vast deal of difference in the significance of the two news items—what Mr. Ford purposes to do is constructive—what the war-fueled of Central Europe purposed to do was destructive. The plans of the latter were born in evil and brought forth in the iniquity; the plans of Mr. Ford are those of an altruistic upright gentlemen, and were conceived out of a deep sense of personal responsibility to the human race and because of a true patriotism for his own country. It is said on excellent authority, that it is the dream and earnest wish of Ford, to extend his industrial empire, until the inventions and the enterprises he sets to work, shall revolutionize and transform the living conditions of all mankind. In so far as he purposes to make large quantities of fertilizer which in turn will make thousands of blades of grass grow and thousands upon thousands of hills of corn to grow, where nothing is growing at this time. Mr. Ford is attempting to meet the fundamental needs of all the people of this nation. He purposes to do this by the operation of the great nitrate plants, as at present almost completely by the action of the federal government as a war time measure and thereby selling fertilizer to the farmers at a low cost. A second purpose of Mr. Ford, is to release for practical use, the millions of horse power, now locked up and useless in the rapids of the Tennessee river at Muscle Shoals. As a third purpose the great manufacturer doubtless expects to build many automobiles and farm tractors by the use of machinery he will set up near the Muscle Shoals and to be driven by the river waters at that point. One of the first things to be done, in carrying out these plans is the completion of the Wilson Dam, the largest piece of engineering of its kind in the entire world. When work is resumed on that enterprise, it will be the signal for an industrial awakening all along the Tennessee river and at many other points in the South, the like of which has never been even dreamed of. The progress of the negotiations now said to be under way for utilizing the power at Muscle Shoals, and the working out of whatever plans are determined upon will be watched with keenest interest.

THE REPUBLICAN LEADERS ARE REGARDED AS UNGENEROUS

The whole trouble encountered by the Republican politicians so far, has been due to "too much Wilson." In the first and foremost place the Former President wrote such a good peace treaty, that his political enemies cannot improve on it. It seems that the only way as acceptable treaty can be made now will be to duplicate the one recommended by Mr. Wilson. The whole attention of Senator Lodge and his colleagues for the past six months has been turned toward devising some means whereby peace could be proclaimed without agreeing to the Versailles treaty in all of its main provisions but without results. The two most popular members of the Harding cabinet, Messrs. Hughes and Hoover, have been out-spoken in favor of ratifying the treaty signed at Versailles. Hughes and Hoover not being politicians enough to see that it would never do for Mr. Wilson to get credit for his work, in the Paris peace conference!

Those statesmen did not seem to be worrying about who got the credit, just so the dislocation caused by the war was remedied.

As time passes, it is becoming more and more evident that the Republicans over played the game in trying to keep President Wilson out of the credit due him. The opinion is gaining ground, that if the Republicans had frankly admitted the many good points in the treaty and gone on and ratified it with some reservations, they would now be in a much stronger position with the country. Had this been done and the party in power gotten down to business, and cleared up the domestic muddle, it would have been given as full credit for doing its best, as Mr. Wilson and his colleagues have been given honor for doing the best they knew. As matters now stand, the average citizen is inclined to look with contempt upon the ungenerous manner in which Mr. Wilson and his services have been regarded, by the dominant political party, but it is only fair to say that many politicians of either party, it seems, have reached the point where the interests of the country and the people are subordinated to the one proposition of "give me the office and the patronage."

CORDIAL WELCOME

"The Cinder" published by the Morgan Printing Co. of Decatur is on our exchange table. It is a neat, well-printed sheet and contains much that is commendatory and a credit to its publisher. "Tall trees from little acorns grow," and the Daily extends its best wishes to the paper and its publishers. If there's anything the new paper can do to help build up these towns, bring harmony, contentment and happy people, it will fill a mission and will meet with success. Here's luck to you.

FRATERNAL PRINCIPALS AND LABOR TROUBLES

President Harding's choice for Secretary of Labor is a man whose life for the past fifteen years has been devoted to Fraternism. James J. Davis is the head officer of the Loyal Order of Moose. If he brings to bear—and he scarcely can fail to—the rules and principles governing true fraternity, we shall witness an ideal Secretary of Labor. Mr. Davis already is of record that he is going to carry into his government work the fundamentals that regulate the orderly affairs of Fraternism. The old familiar stand-by, the Golden Rule is going to be put back on the job. Speaking of the relations between employer and employee, Mr. Davis said:

"It is a great deal better for them to get together and settle their own differences. As they are in daily touch with each other—they understand each others problems, and with eyes looking into eyes, I am sure they will reach an agreement much easier than having the Secretary of Labor or anyone else try to adjust their differences for them. Let brotherhood, fraternity, and friendship dwell in their hearts, and they will be prosperous, contented and happy. Neither side should try to put anything over the other. Each should recognize the right of the other, and both, the rights of the public. The pendulum swings backward and forward."

Good wholesome doctrine, the ideals and convictions that animate the purposes of every true fraternalist.—Fraternal Union.

EASY STREET

The reason Easy Street isn't on the map is because there is no such thoroughfare. If one of our fellows has established a reputation or is making money faster than he can spend it, we say that he dwells on Easy Street, but that is because we do not know the facts. When an author produces a wonderful piece of work that develops into a best seller and brings him thirty or sixty or eighty thousand dollars, laymen say of him: "Now he has arrived on Easy Street; he can sell anything he writes." But he can't. His one best seller may have drained him to the dregs. He may not have another story in his system. And if he produces another work that has little merit, and his reputation persuades some publisher to accept it, the public will pass by on the other side. He must keep his work up to the standard he has established or take his place among the has-beens. Indeed, he must improve; for the thrill the public got from his first performance wears away in a little while; and, having learned to expect much, the public will not be thrilled again except by a work of greater merit. So with all who arrive, pianists, fiddlers, painters, sculptors—they must keep the pace or step aside for those who can. A reputation may be cashed at the paying teller's window today; but the account is soon overdrawn.—Baltimore Sun.

Famous British Aviator Is Killed This Morning in Practice Flight for Derby—Inquest Saturday

(International News Service)

LONDON, July 13.—An inquest will be held on Saturday over Harry G. Hawker, famous British aviator who was killed while practicing for the annual derby this morning. Hawker was the first air man to attempt a non stop Trans Atlantic flight.

Admirers Settle Fine of Baseman

"Lew" Lauderman was stuck ten bucks for a little jaw work in Monday's game when he ebated a little too freely with his majesty Umpire Thomas.

"Laude" came to the plate in the second frame with murderous intent to slash out a blow. After taking one swing at the apple Laude set for the second. Umpire Thomas ruled it a strike. Well! Laude didn't see it that way and told the Umps what he thought about it in a nice gentlemanly fashion. Umps Thomas requested that he take a short vacation for the remainder of the afternoon and in addition stuck him for a fine of ten dollars.

A collection was taken in the stands that proved to settle all Lauderman liabilities and he appeared in uniform for the thirteen inning battle on yesterday.

Will Have Real Passenger Train

(Montgomery Bureau Albany-DeCATUR Daily)

MONTGOMERY, ALA., July 13.—Citizens residing on the Cain Creek branch of the Louisville and Nashville railroad, which runs from Birmingham to Prase, will have a real passenger train instead of a mixed train as an experiment and if the income from the train is sufficient it will be continued. The public service commission today granted the petition of the railroad for the establishment of a passenger train as an experiment and with the understanding that it may be removed at the option of the company.

For many years the only accommodations citizens on that branch have received have been on mixed trains which carried both passengers, and freight.

Direct Hits Made in Bombing Tests

HAMPTON ROADS July 13.—Forty six army planes were given an opportunity to demonstrate their ability in sinking sea craft, in conjunction with the aero bombing tests, which are being conducted today by the Navy. Direct hits were scored on a former German Destroyer by Martin bombers at ten twenty according to reports by returning air men.

Piano Buyers Reap Harvest

Folks are buying pianos this week at Kelley and Hauk's Big Reductions. In prices and easy payment plans allow any family to own one now. If you are thinking about getting one join their 20 club.—Adv. 11.

BILIOUS CHILDREN

Black-Draught, Long in Successful Use, Praised by an Arkansas Mother, "Soon Does Its Work."

Marmaduke, Ark.—Speaking of Theodor's Black-Draught, which from long use in her household has become regarded as "the family medicine," Mrs. Mary E. Hill, of Route 1, this place, says:

"When the children get bilious, I give them a couple of good doses, and when we have sour stomach, headache, or any liver or stomach trouble, we use Black-Draught. It is an easy laxative, and soon does the work. I certainly think it is one of the best remedies made."

Black-Draught acts on the liver, gently, but positively, and helps it in its important function of throwing out waste materials and poisons from the system.

In thousands of households Black-Draught is kept handy for immediate use in time of need. Prompt treatment often is half the battle, and will often prevent slight ills from developing into serious troubles.

Its well-established merit, during more than 70 years of successful use, should convince you of the helpful effects obtainable by taking Black-Draught for liver and stomach disorders. Get a package today, and keep it in your house. See that the package bears the words "Theodor's Black-Draught."—NC-141

Unconfirmed Report of Fighting in Bulgaria

(International News Service)

LONDON, July 13.—The Daily Telegraph printed a report from Copenhagen and dated Sofia saying fighting has broken out in Bulgaria. Report, however, is unconfirmed.

Banks Are Closed in Honor of Forrest

COLUMBIA, Tenn., July 13.—A legal holiday is declared by all banks in the state of Tennessee today as a fitting memoir to the anniversary of General Nathan Bedford Forrest, dashing cavalry leader of the Confederate forces during the Civil War. Only in recent years has the value of General Forrest been recognized by the people of the United States. He was of particular aid to Johnston and Hood in their battles through Southern Tennessee, northern Alabama and Georgia, carrying through some of the most famous cavalry raids in history.

Flint Odd Fellows Install Officers

Flint Lodge No. 65 I. O. O. F. installed officers last night with Bro. A. P. Johnson presiding as District Deputy. The following elective officers were installed: W. T. McKee, N. G.; T. I. Patterson, V. G.; T. A. Patterson, Secty.; W. S. Patterson, Treas. The first degree was conferred on Bros. A. L. Daniel and F. L. Tapscott, with the assistance of visiting brothers from Decatur, Nolen and Hartselle Lodges.

IN SIGHT.

After the ships had rocked and tossed
From morn till eve,
In such a cruel, angry sea
They scarce could live,
With hope night gone, of masts and
sails bereft,
They fronted death, while loomed
the sullen night,
Till through the creerless gloom a cry
broke forth—
"Land! Land in sight!"

After his hands had toiled, day in,
day out,
With naught his share
But failure's crown of weariness
And dull despair.
He woke one morn, and there before
him gleamed,
Beneath the light,
A vision chased through countless
days of care—
Fame! Fame in sight!

At last! After each closely woven tie
That binds the heart
Had vanished in the dreamy, distant
past
Or snapt apart,
A woman through the long, sad years
looked forth
In sorry plight.
When lo! before her, true and sweet
arose—
Love! Love in sight!

After earth's ships (perhaps long
wrecked) have sunk,
Even Fame and Love,
And earthly things no more for weal
or woe
Have power to move,
Will flash the brightest radiance eyes
have seen—
Such dazzling light!
When upward-glancing souls in rap-
ture find
Heaven! Heaven in sight!

KATHLEEN WHEELER ROSS.

give away a fine \$650 piano this
week—Have you a piano in your
home? Now is your chance. Price
inducement to club members are the
lowest ever offered to the buying pub-
lic. Kelley and Hauk way of adver-
tising.—Adv. 1t

MESDAMES. FRANK YOE AND KENNETH COOPER HONOREES

Mrs. Daniel Blackwell entertained
at dinner on yesterday in honor of
Mesdames Frank Yoe of Mobile and
Kenneth Cooper of Birmingham. Cov-
ers were laid for seven and a dainty
repast enjoyed. The dining room was
rendered most attractive by decora-
tions of beautiful flowers, a basket
of shasta daisies centering its perfect
appointment. In addition to the
honorees and hostess and son of the
home, Carlisle Blackwell, the follow-
ing were present: Mr. and Mrs. J.
W. Cobb, Miss Bessie Cobb and Dr.
F. P. Pettie. Following the dining
the party witnessed the presentation of
a picture at the Princess Theatre.

Miss Iris Finley left Saturday for
a two months trip to be spent in the
west. Miss Finley will visit the Grand
Canyons, Salt Lake City, Yellowstone
Park, Spokane, Washington; and
points in Calif.

Mrs. Kimball Jones of Albany is
visiting relatives in Florence—Flo-
rence Daily News.

Mr. and Mrs. L. W. Borton are
leaving today for an extended trip
through the north and far West.

Mrs. A. T. Hanson leaves today
for Gurley, Ala., to be the guest of
relatives.

Mrs. S. G. Armstrong is the guest
of her sister Mrs. Leonard Hobart, in
Birmingham.

PERSONALS

Don Phinizy, of Birmingham is the
guest of Mr. and Mrs. Early Phinizy.

Postmaster T. H. Alexander, though
still confined to his home is some-
what improved in health today.

W. R. Smith is able to be out after
confinement to his home of illness.

THANKS

Geo. A. Nelson has complimented
the Daily force with a big
box of rich, ripe apples, and
chewing the rag has been tempo-
rarily suspended and the juicy fruit
enjoyed by all. This is not the first
time by any means Mr. Nelson has
taken occasion to extend a courtesy to
this office and all are greatly appre-
ciative.

Bloody Axe Is Used to Murder

BIRMINGHAM, July 13.—Attacked
while asleep early this morning by
an unknown assailant who assaulted
them with an axe Charles Valdome an
Italian, his wife and daughter are in
a critical condition. Neighbors who
came to visit the family this morning
discovered the depredation and noti-
fied the police. Neither have as yet
regained consciousness. There are no
clues as to the cause or to those who
assaulted. Neither Valdome nor his
wife are expected to recover. Three
children of the Italian were not
harmd.

Credit Must Be Immaculate.

Credit is like a looking-glass, which,
when once sullied by a breath, may
be wiped clear again; but if once
cracked can never be repaired.—Walter
Scott.

Seconded.

Correspondent opines that some les-
sons in efficiency are needed by our
legislators—they make, he says, so
many unnecessary motions.—Boston

MULES TAKE ANOTHER.
COLUMBIA, TENN., July 13.—(Special.)—Columbia took the second game from Russellville here yesterday making it two straights over the Alabamians.

Flowe of the Mules led with the mace securing a pair of triples out of three times at bat. Cochran also got a three ply smash.

"Lanky" Bass was in good form and let the Miners down with seven scattered hits with a total of two runs. Bunched hits by Columbia were responsible for the six tallies by the home club.

As a result of the Mules winning and the Triplets losing the Mules have a fighting chance to place second in the pennant race.

ATHENS LOSES
ATHENS, ALA., July 12.—(Special.)—The local baseball team was defeated by the Mooresville-Belle Mina Athletic Club here today 3 to 1. The game was fast and interesting throughout. Holman, pitching for the visitors, let the locals down with three scattered hits. Moore, who hurried for Athens during the first five innings pitched good ball until the fifth when bunched hits and an error let in two runs, after which he was relieved by Whitt. The latter kept the hits scattered and no more runs were scored.

Another game will be played by the same teams Wednesday afternoon on the local diamond.

New Assistant Sec'y Comes to Y. M. C. A.

At an executive meeting of the committee of management of the railroad Y. M. C. A. held in the office of Master Mechanic C. W. Matthews yesterday afternoon at 4 o'clock along with other business, the resignation of H. M. Eggers was accepted as assistant secretary, and J. P. Bailey, formerly a physical director in the Central Y. M. C. A. of Atlanta was elected to take his place. It developed in the meeting that Mr. Bailey was highly recommended by the Atlanta association, as well equipped for the work he is to be assigned to here.

General Secretary Walter C. Nollau, explained that it was the intention, to put Mr. Bailey, who has already arrived, immediately in charge of the summer's bathing program of the association. Mr. Nollau said that it was now arranged, that Mr. Bailey instruct every morning such as know nothing of the water or how to swim, while in the afternoons he will aid those who can swim some, but who do not know the fine points of the art. Life saving and first aid lectures will also be given by Mr. Bailey according to Mr. Nollau, who also explained that this fall, it was the purpose of the association to go in strong for a physical culture program under the direction of Mr. Bailey.

It was shown in the meeting, that while the progress was slow, continued reduction in the indebtedness of the association had been accomplished. The new sewer system, now being installed, it was stated, will greatly improve the manner in which the baths are taken at the association. Mr. Nollau said in all the bathing, including the pool baths, and swimming, that all the regulations required by the state board of health were carefully complied with. The meeting was presided over by E. R. Wolff, chairman of the committee of management.

Celebrated Singers at Asheville Festival

ASHEVILLE, N. C., July 13.—Anna Case, one of the world's great singers, will head the list of notable artists to appear here during the Asheville music festival, August 8 to 13, the success of which is now assured through a \$40,000 guarantee fund subscribed by Asheville business men. In addition to Anna Case there will be ten other celebrated singers on the program, while the famous Philadelphia Festival Orchestra, Thaddeus Rich, Director, will be here for the nine concerts.

This will undoubtedly be the greatest summer music festival held in this country. From a financial viewpoint it will be the costliest. From an artistic viewpoint it will be one of the most important ever held in the United States. It is already known that it will bring to Asheville people from every Southern state and as to attendance the success of the festival is already assured.

Precious stones were classed as male and female by the Romans, according to the darkness or lightness of their color.
